

Transport 2026

We know many of our guests travel in from across the country, so we've put together a little guidance to help you plan your journey home with ease. Our weddings usually draw to a close at midnight, and we ask all non-residents to depart by 12.30am. Pre-booking transport is strongly recommended, as cars can get busy at peak times and waiting in the valley late at night isn't ideal.

Some local firms offer app-based ordering and live tracking, while others operate by phone — both work perfectly well in our rural spot, but a little forward planning goes a long way.

A telephone and a list of these numbers are also available in the Main Hall should you need to arrange a last-minute booking on the day.
